PROFESSIONAL SUMMARY

GoHighLevel & AI Automation Specialist who builds funnels, websites, and CRM workflows, then automates the backend with n8n and AI. Big into "vibe coding" — using AI tools to build and ship fast. Owns projects end-to-end, from strategy to execution, with a focus on speed and getting client systems live quickly.

TECHNICAL SKILLS

- Automation:** n8n, Zapier, GoHighLevel
- Funnel Website:** Custom JavaScript, HTML & CSS
- AI:** OpenAI, Claude Code, Lovable & Prompt Engineering
- CRM:** Lead Management, CRM Automation, Pipeline Management, Apollo
- Integrations:** REST APIs, Webhooks
- Additional:** Basic Full-Stack Web Development, HTML & CSS, JavaScript, React, and Express.js

PROFESSIONAL EXPERIENCE

- Freelance AI Automation Specialist | October 2025 – Present
- Design and build custom AI automation workflows using n8n, integrating LLMs (OpenAI, Claude) with tools like Supabase, Airtable, and Google Workspace to eliminate manual client processes
 - Develop AI agents for tasks such as email handling, data extraction, and customer support, combining prompt engineering with structured backend logic.
- Freelance GoHighLevel Funnel Builder | November 2024 – Present
- Designed and built custom sales funnels, landing pages, and websites in GoHighLevel for small business and coaching clients
 - Set up automated email/SMS follow-up sequences, lead pipelines, and CRM workflows to capture and convert leads
 - Integrated GoHighLevel with third-party tools (e.g., n8n, payment processors, calendars) to streamline client operations end-to-end
- GoHighLevel Virtual Assistant | February 2025 – January 2026
- Managed CRM pipelines, customer records, and appointment scheduling within GoHighLevel.
 - Built automation workflows for lead nurturing, SMS/email campaigns, and appointment reminders.
 - Improved sales operations by reducing manual CRM tasks and maintaining accurate customer data.

EDUCATION

Bachelor of Science in Computer Science
Saint Michael College of Caraga | 2012–2016
